Central Intelligence Agency

SUBJECT: FBIS Reporting on the Muslim World

Frank:

With regard to your memorandum on March 31, we have cleared your proposed telegrams with the desks concerned, and they are being transmitted to the field today. A few suggested minor changes in the texts have been cleared with James Bronson of FBIS.

Our MODE Staff informs me that the new American positions can be accommodated within your ceiling. I would appreciate it if your MODE Staff could be in touch with them to accomplish the necessary record keeping. ✓
